Wrist Camera Brightness

Camera	訓練資料	03-02（有成功）	03-03（無成功）
top_rgb	209.48	208.73	200.23
left_rgb	220.71	212.43	137.90
right_rgb	197.02	191.57	101.69

```
1 light_cfg = sim_utils.DomeLightCfg(intensity=1200, color=(0.75, 0.75, 0.75))
2 light_cfg.func("/World/Light", light_cfg)
3
```

The RTX renderer's handling of the same light source is uncertain across different sessions. RTX path tracing uses Monte Carlo sampling to calculate light reflections, and its convergence results may vary due to factors such as GPU state and the initialization order of the rendering pipeline.
